

Powered by the sun and SunPower®

The company long trusted by Hawai'i businesses can now be your first choice in residential photovoltaic systems

Since 1994, Hawai'i-grown Energy Industries LLC has implemented thousands of energy-efficiency and photovoltaic (PV) solutions for Hawai'i businesses and institutions, including the Bishop Museum and Hawaiian Host Chocolates.

Now, homeowners can also rely on Energy Industries' high-quality design and workmanship on PV systems for their personal residences.

Committed to excellence, Energy Industries is proud to install SunPower®, the most powerful PV modules on the planet.

SUNPOWER

THE WORLD'S STANDARD
FOR SOLAR™

- Best efficiency
- Best solar cell design
- Best electricity output
- Best warranty

SunPower's industry-leading **25-year Combined Warranty** sets a new standard in overall coverage with guarantees of high performance and replacement of under-performing panels. More power over a longer period of time—problem free.

The evolution of energy

SUNPOWER

SunPower Advantage

The Choice of More Homeowners

- Offering a complete solar solution (panels, inverters, racking, and monitoring)
- SunPower panels have efficiency ratings up to 21%, delivering more power in a smaller space (compared to most competitors with 15%)

Premium Warranty

- Offering the industry's only 25-year product warranty
- Minimum 87% of original performance in year 25, compared to industry standard 80%

Flexible Financing

- Lease: \$0 down options with low monthly payments
- Loan: Convenient monthly payments while still owning the system and keeping the tax credits and other incentives
- Purchase: Enjoy the benefits of ownership with no monthly payment and keep the tax credits

Client testimonials:

"I have every confidence in recommending Energy Industries. I sense the consideration you have for clients, I appreciate the fact that responses are forthcoming so quickly, and have experienced professionalism which is so valued!"

Stephanie Marques, Honolulu

4.91kW PV system, (15) SunPower 327 watt modules

"I was impressed! The EI Team that showed up at my residence was very polite, friendly, and fast. They reminded me of my military days: they had a mission to do and boy did they accomplish it professionally. Mahalo."

Barrett Tuck, Kaneohe

10.46kW PV system, (32) SunPower 327 watt modules

"It has been a pleasure having my PV installed by your firm. You were always efficient and thorough in all that you did. You answered any questions that I may have had and included illustrations to make the information clearer. I was finally able to connect with Enphase Energy, today. Thank you. I would gladly recommend your firm to anyone interested in installing a system. Mahalo"

Sarah Kamida, Waipahu

1.96kW PV system, (8) SunPower 245 watt modules

"You guys da best!"

Barry Muranaka, Honolulu

3.45kW PV system, (15) SunPower 230 watt modules
